GRAND TOTAL	46,440	46,805	4,482	4,881	22,886	22,614

Note:

In Greece, Italy, and Spain "consumption" includes fruit withdrawn from the market under the EU price support program. Split years refer to harvest and marketing period, which usually begins in the fall and extends to the spring. This corresponds roughly to October-June in the Northern Hemisphere and April-December in the Southern Hemisphere. For Southern Hemisphere, harvest occurs almost entirely during the second year shown. For Gaza and South Africa, includes tangerine production. For the United States, includes temples.

Note:

Split years refer to the harvest and marketing period, which usually begins in the fall and extends to the spring. This corresponds roughly to October-June in the Northern Hemisphere and April-December in the Southern Hemisphere. For the Southern Hemisphere, harvest occurs almost entirely during the second year shown. The harvest of lemons usually begins earlier and often extends throughout the year. Morocco, clementines only. For Japan, mainly satsumas (also called mandarin or unshu mikan but also including mandarin hybrids.) For the United States, includes tangelos, which account for about half of combined tangerine and tangelo production. Export and import data include mandarins.

Note: To convert grapefruit to 1-3/5 Bu. Boxes multiply by 25, 940.

All noncitrus fruit data are on calendar-year basis, except for apples (year begins in August of the year shown), grapes (since 1990, year begins in May; prior to 1990, year begun in July), and pears (year begins in July). For oranges, Temples, tangerines, and tangelos, years begin in November, grapefruit in September, and lemons in August of the prior year. Lime year begins in April of the year shown. 2005 Season is Preliminary.

Note: 2006-07 Season figures are preliminary. The Parity price is that which gives the producer of commodity the same buying power that the commodity had during 1910-14 when prices received and paid by farmers were considered to be in good balance.

Note: Prepared by Economic Analysis and Program Planning Branch, FVP/ams/USDA. 1/ 2(1/ 2002=1-2004 from Citrus Fruits and Annual Agricultural Prices, National Agricultural Statistics Service (NASS), USDA. 2005 was estimated, based on monthly NASS "Agricultural Prices" and shipment data from Citrus Administrative Committee.

2/ Based on NASS data (U.S parity price, Florida fresh prices, U. S. prices) and Florida fresh shipment data from the Citrus Administrative Committee.
