CAC and USDA seeks Diversity

The Florida Citrus Administrative Committee (CAC), which administers Florida's fresh citrus marketing order, is actively seeking new committee members. The CAC, with USDA oversight, assures orderly marketing of fresh fruit by setting minimum grades and size standards for Florida citrus.

In addition to new members, the CAC seeks to increase the level of diversity on the Committee. The CAC aims to be representative of the industry and strongly encourages women and minorities to apply to serve on the Committee.

Just as importantly, the CAC encourages participation from industry members who have not previously served on the Committee. USDA is especially interested in getting input from small business and organic growers, so that the Committee might represent all interests in the Florida citrus industry.
